## SAYS CHURCH IS LACKING LEADERSHIP

Attorney John A. MacPhail, Adams County representative to the White House Conference on Children and Youth held last month, spoke at the May Fellowship luncheon of the Gettysburg Council of Church Women held in the Church of the Brethren, Biglerville Rd., Friday noon. He said that the conference provided an opportunity for youth and adults to sit around a table and discuss current problems. In his opinion he said, "the churches, more than any other institution, suffer from lack of leadership in youth work. Most churches don't meet the need of 50 per cent of their young people."

Rev. Charles C. Frazier, director of ministry to migrants, Pennsylvania Council of Churches, spoke on the needs of the people in the 62 migrant camps in the county. He said that Puerto Ricans and south Negroes "are the two types of agricultural migrants in our section." He suggested that the women make health, first aid and sewing kits, layettes and blankets for the people who come north to work "with practically no resources but the clothes on their backs."

**62 At Luncheon**

The premier told the Soviet Parliament that the plane was shot down near Sverdlovsk in the Urals while en route from an American base in Pakistan to a base in Norway.

It was intended, he said, to photograph the Ural region, Archangel and Murmansk.

Khrushchev identified the pilot as Francis Gary Powers, 30, and said Powers had told Soviet interrogators he had been instructed not to surrender to the Soviets and had been given a poison kit in order to commit suicide if captured.

## Atheism And Its Success Discussed By Bishop Lilje

The confrontation of the Christian with the forces of atheism was discussed by Bishop Hanns Lilje, of Hannover, Germany, in the concluding lecture at the Lutheran Theological Seminary, Friday morning as the 35th annual Seminary Week observance was brought to a close.

The fundamental question behind Dr. Lilje's lecture was: How can the church meet the ethical, intellectual and spiritual problems of Europe and the world?

Atheism as defined by the Lutheran bishop is not that of repudiation of God, but, he said, "There seems to be no place for the concept of God in the modern world."

In analyzing the problem, Bishop Lilje declared that there are three forms which atheism takes: The militant atheism, of which Marxian philosophy is the best example; intellectual atheism as found in French existentialism, and "practical" atheism, which he defined as "thought which leads one to behave as though there is no God." This, he suggested, is the fault of Western culture, and is produced among people who lead a comfortable, easy life.

"One of the reasons for the presence of atheism is that the relative simplicity by which it is presented in literature. What you cannot express simply you cannot understand, and what you cannot express simply you do really believe," the bishop said.

Another contributing factor to the success of atheism has been (Continued On Page 3)

## U.S. To Make New Nuclear Underground Tests This Year

President Eisenhower today announced "approval of a major expansion of the present research and development directed toward an improved capability to detect and identify underground nuclear explosions." The tests will be made in this country this year.

The announcement was made by the President's press secretary, James C. Hagerty, at a press conference in the parlors of the Hotel Gettysburg at 9:40 o'clock this morning.

"Agreement has been reached," the President said, "to convene with a group of Russian, British and United States scientists in Geneva May 11 to exchange information on the seismic research activities of the three nations as a basis for future determination of the areas in which coordinated or joint research would be most fruitful."

## For "Peaceful Uses"

Hagerty emphasized that the tests will be "nonweapon development limited to peaceful uses."

The statement further said: "The present U.S. program has evolved from the recommendations set forth by the Panel on Seismic Improvement (Berkeley Panel). For the fiscal year, 1960, it has been funded for approximately \$10,000,000. During the 1961 fiscal year it is anticipated that the funds required will be about \$66 million for all aspects of the seismic research and development program. Known as Project VELA, the program calls for increased basic research in seismology; procurement of instruments for a worldwide seismic research program; development of improved seismic instruments; construction and operation of prototype seismic detection stations, and an experimental program of underground detonations encompassing both high explosive and where necessary nuclear explosions. The planned program provides for investigation of all aspects of improvement that are considered to be feasible.

## No Radioactive Fallout

"Such nuclear explosions as are essential to a full understanding of both the capabilities of the presently proposed detection system and the potential for improvements in this system would be carried out under fully contained conditions and would produce no radioactive fallout. In order to develop sufficient reliable data from the program, it is anticipated that it will be necessary to conduct a series of explosions of various sizes in differing types of geological formations.

"Recently the Soviet negotiators at Geneva concurred with the proposal that underground nuclear explosions should be conducted to improve the capability of the proposed control network to detect and identify underground explosions.

"They have also indicated a willingness to discuss research and development in the seismic detection area with the U.S. and (Continued On Page 3)

## HONEYMOON COUPLE SAIL THE HIGH SEAS

By DENNIS NEED

LONDON (AP) — Mr. and Mrs. Antony Armstrong-Jones sailed westward through the placid waters of the English Channel today, bound for a sunshine honeymoon in the Caribbean.

To the customary "whither bound?" signal from Channel shore stations, the royal yacht Britannia carrying Princess Margaret and her commoner husband flashed back the jaunty reply of olden-day British sea dogs:

"Destination unknown — high seas."

Then the ship closed its radio to all but official messages.

The Britannia was headed for the West Indies but no port of call has been announced. Most speculation favored a Trinidad, which Margaret has visited before and was warmly greeted as the "calypso princess."

### May Touch U. S.

Others suggested the honeymooners might swing northward and call at a U.S. Gulf port such as New Orleans or the Florida coast.

The British Admiralty refused to say.

Behind the princess was a wedding day of never-to-be-forgotten magnificence and pageantry.

It was a day of sunshine, smiles and the thundering cheers of close on two million excited Britons for their favorite princess and the man of her choice.

The board received a revised report from its building committee recommending additional housing at the main library, starting with a children's reading room and a stack room and with alterations to the present building to follow; recommended that the former female academy building be razed when new construction work begins and recommended that additional land be acquired back of the academy building to straighten the west property line of the library property. All of these recommendations had been covered in a survey report made to the annual meeting of the library association in January.

The report was tabled for action at a later meeting. Only one member of the Building Committee was present Friday evening.

The Jacobys, parents and children, agree Kim Moon Ja is a "wonderful child."

They also reported they are changing their mind about the child's name. When they dreamed of her arrival they thought she should be renamed Donna. Now they are not so sure. "Kim Jacoby" seems like a very nice name.

## CHURCHMAN TALKS FRIDAY AT COLLEGE

Dr. Hanns Lilje, Lutheran bishop of Hannover, Germany, predicted here Friday that "the West will be led into a catastrophe if its academic groups can't overcome the prevalent atmosphere of indecision."

Bishop Lilje cited modern despair and resignation and other weaknesses of the Western mentality and philosophy. He called for "men of purpose like the Apostle Paul." He spoke at a student convocation at Gettysburg College.

**A "Familiar Place"**  
He quoted the injunction in Paul's epistle to the Corinthians: "Be ye steadfast, immovable, always abounding in the work of the Lord."

"Men who are immovable don't have to think twice at a time of crisis. The most beautiful academic education means nothing unless a person is able to answer a fundamental, terrifying question at a time of test," he declared.

Bishop Lilje called Gettysburg a familiar place known throughout the world "not only for its past history but for its present meaning as well." He praised Christian colleges where young people are trained to make a contribution to life. "I don't know anything better than that," he said.

"The leaders of nations must know they cannot fight an ideological enemy with an empty hands and empty hearts. Mere intellectual knowledge is not enough. Something more is needed: a call by the living Christ. You will be surprised what this Lord can make of your lives," he concluded.

## Driver Stricken At Wheel; Crashes

CHAMBERSBURG, Pa. (AP)—A motorist apparently suffered a fatal heart attack at the wheel of his auto here Thursday, causing it to crash into another car.

Roy L. McCleary, 49, of nearby Marion, was pronounced dead at the scene.

Occupants of the other car, Mr. and Mrs. Daniel J. Peddicord and their son, David, of Huntingdon, N. Y., escaped injury.

McCleary had stopped his auto preparatory to making a left turn into an oil company plant where he was employed.

Police said he slumped over the wheel and his auto moved into the path of the car driven by Peddicord.

human beings," Khrushchev said. The premier showed the cheering deputies a film which he said had been taken from the plane and developed here.

Khrushchev led into his story of the confession by saying: "Now I am going to tell you a secret. I did not tell you when I first reported the story that we had parts of the plane and that we also have the pilot who is alive and kicking."

"We did that on purpose, because if we gave all that information another explanation (by the United States) would have been produced."

"Some of the photographs are of Soviet aerodromes and industrial enterprises," he declared. "The camera used was a good one."

Khrushchev claimed that Powers had since admitted he was working in military intelligence under cover of an official job at a civilian station.

"He has said that he was to have flown over a number of points including Murmansk and Archangel switching on and off his apparatus over various points marked on the map," said the premier. His eventual destination was the Norwegian airport at Boedoe.

(Commenting on Khrushchev's earlier announcement that a U. S. plane had been shot down, the State Department said Friday a single-engine high-altitude jet used in weather research took off from Adana, Turkey last Sunday and had been missing. It said the pilot might have been unconscious when the incident occurred.

"During the flight of this plane," the State Department report said, "the pilot reported difficulty with his oxygen equipment which could result in the pilot losing consciousness, the plane continued on automatic pilot for a considerable distance and accidentally violated Soviet air space."

**Slurs U.S. Again**  
Khrushchev was in his best dramatic mood appearing before the Soviet deputies.

In attacking the United States speculation of what happened to the missing weather plane, he declared:

"Now they have already told us a lot of foolish things and I am sure they will give us more foolish things."

Khrushchev then quoted the pilot as testifying that "his apparatus was not damaged and that he was flying along the itinerary prescribed for him. The people who sent him thought he wouldn't be detected because of the great height of his flight."

"But he was detected at the height of 20,000 meters (about 63,000 feet). We caught him there and will catch any plane even at higher height."

Khrushchev said Powers escaped from his crashing aircraft by parachute.

He was, claimed the premier, equipped with a noiseless pistol and a supply of Soviet money and French gold francs—"carefully wrapped in cellophane." Powers was also carrying several pocket watches and several women's rings.

"Was he going to fly to Mars and seduce Martian women?" Khrushchev asked scornfully amid laughter.

its appeal brought about by scientific thinking which has become characteristic of the modern world, he said. But there are other approaches to reality — historical, theological, philosophical as well as the scientific, he added.

"Following purely scientific methods, one never finds the need of introducing the reality of God," he stated. "In his confrontation with the principles of atheism, it is necessary for the contemporary Christian to ask God for intellectual courage and to live to present the Gospel in our puzzling day," he concluded.

**Conduct Bible Study**  
Bishop Lilje has lived under two totalitarian states: National socialism and now communism. He currently is in America as a visiting professor at Union Theological Seminary, New York.

Prior to the address, a Bible study was conducted by the Rev. Dr. Raymond T. Stamm, on the theme "Taking Away the Sin of the World." Dr. Edmund Steimle, of the Lutheran Theological Seminary, Philadelphia, concluded his four-lecture series in the annual Zimmerman lectures on effective preaching. His theme was "Exposition as a Method," in which he compared and contrasted Biblical and expository preaching.

The Rev. Dr. Jacob M. Myers, professor of Old Testament at the seminary, served as liturgist for the opening matins service, and presided at the lecture sessions.

Arrange Fire Phone Service In Bonneville: A committee appointed last month to confer with United Telephone company officials relative to connecting the Bonneville fire siren with the Gettysburg exchange reported at the monthly meeting of the firemen that the company was unable to grant this request. However, an alternate suggestion was made that a telephone be installed in the Bonneville fire hall and the telephone company agreed to hook on this line the phones of any persons that the company will designate to receive this ring. The firemen approved the plan.

New Gas Rates Filed With PUC: Lower rates for natural gas users in the Gettysburg district served by the Manufacturers Light and Heat company, Pittsburgh, were filed with the Public Utility commission, Harrisburg, Tuesday. ## Today's Talk

**THE WAY YOU THINK**  
The sound and words of what we say do not always square with what we think. It is so much safer and happier to take a longer time to think than to talk. As we grow older, we learn this. There is nothing more important than the way we think.

In the same way that our actions have an influence upon those who are near to us, so do our thoughts have an inside influence upon our thoughts yet unborn. We are our own best or worst companions. Thoughts are deeds!

The way you think is the way you are! The philosophy of a sound mind in a sound body is one of the greatest in life. Clean thoughts are indicative of a clean and healthy body.

We are stimulated by those of our friends and companions who think. The man or woman who clearly and honestly thinks is on the road to certain success. When a nation stops thinking, it dies and is followed by one that does think. Every process of unfolding in this world among men must continue to be fathered by serious and earnest thought.

In any emergency the first thing to do is to think!

The greatest thing any master of education can do is to teach one how to think. For to think is the beginning of all action. And it is the way in which you think that stamps you as one of worth—or worthless.

Think correctly and you are bound to talk correctly. Think cleanly and you are sure to live cleanly.

## Just Folks

## THE BETTER THING

It is better to close with a conscience clean  
Than win by a trick unfair;  
It is better to fail and know you've been,  
Whatever the prize was, square

Than to claim the joy of a far-off goal  
And the cheers of the standers-by  
And to know deep in your inmost soul  
A cheat you must live and die.

Who wins by trick may take the prize,  
And at first he may think it sweet;  
But many a day in the future lies  
When he'll wish he had met defeat.

For the man who lost shall be glad at heart  
And walk with his head up high,  
While his conqueror knows he must play the part  
Of a cheat and a living lie.

The prize seems fair when the fight is on;  
But save it is truly won  
You will hate the thing when the crowds are gone,  
For it stands for a false deed done.

And it's better you never should reach your goal  
Than ever success to buy  
At the price of knowing down in your soul  
That your glory is all a lie.

## Gettysburg Schools Report

## Foreign Student Program

For the past four years, the students and faculty at the Gettysburg Junior-Senior High School have been supporting the American Field Service foreign exchange program. In 1956 the Senior High School Student Council conducted a fund-raising program to initiate the program locally. Since then, over four thousand dollars has been given, or raised, by the students and faculty. This money has been used to bring three foreign students here, to send one of our students abroad last summer, and to establish a fund to support an exchange of students for this coming year.

Currently, Masako Kajimura, of Tokyo, Japan, is "our foreign student." Missie, as she is affectionately called, has been living with Mr. and Mrs. Stanley Hoffman. Her predecessors include Mari Braaten, of Sokna, Norway, who last year lived with Mr. and Mrs. A. R. LeVan, and Deitz Borowski, of Bonn, Germany, who was our first student and lived with Mr. and Mrs. Samuel Miller. Each of these students has lived in our community for a full school year, prior to returning to his homeland.

It is the program of the American Field Service that has made it possible for us to bring the students to Gettysburg. During the World Wars the AFS served as a volunteer ambulance corps. Having operated a college-level exchange of French students between the wars, the AFS in 1947 began the program of teenage-level exchange with 50 students. During the past year, 1,500 foreign students have been schooled in the United States. This brings to over 6,700 the number of foreign students who have been in the United States under this program and who have returned home to expand the bond of friendship and understanding that was created during the student's visit here.

In more recent years two additional programs have been developed by the AFS. One, American students go abroad to get first-hand knowledge and appreciation of other countries. It was under the summer program that James Bricker, currently a senior at the local high school, visited in Finland last summer. The other of the American Abroad programs is the school program through which a student attends school in another country for three or four months. It is hoped that one of our local students will be selected for this program this year.

**Raise Two Questions**  
Earlier, mention was made of money that has been raised for the aforementioned programs. Two questions might be asked: How is the money raised? For what is the money spent? Although several social activities have been held, with the help of local service clubs on occasion, most of the \$4,000 has been raised through voluntary contributions of the students and faculty of the Gettysburg Junior-Senior High School. Over 12,000 Good Will shares have been "purchased," at 25 cents a piece, in support of this program of international understanding.

For each student that is brought here, the local committee must contribute \$650 toward the expense of operating the AFS program. To send a local student abroad requires an outlay of \$595. In addition, local expenses add approximately \$100 to the basic cost. Locally, the program is administered by a committee of adults and students. The adults include the school administrators, the advisors of the student councils, and the foster parents of previous years. The presidents of the student councils and the various classes (Seniors, Junior, etc.) are the student members of the committee. Mrs. Charles A. Smith, an advisor of the Senior High Student Council, has been the president of the local AFS committee for the past two years.

## Pinchot State Park Opens This Summer

Pennsylvania will have a verdant 2,300-acre state park for outdoor recreation by mid-summer, including a lake and beaches for water sports.

Gifford Pinchot State Park, in the York County hills near Lewisberry, being completed at a cost of \$1,750,000 in state natural gas and oil royalty funds, gives this region its first full-scale state public recreation center.

Named for a former governor and famed conservationist, the projects fulfill for Harrisburg the goal set during the administration of ex-Gov. George M. Leader for a state park within 25 miles of every Pennsylvanian.

This year there will be picnicking, swimming and boating. Camping facilities with a special beach area will be ready next year, along with fishing in the large lake.

Activities at the park will center with a 8.3-mile shoreline. The lake was formed by construction of a 50-foot high dam on Beaver Creek by the Department of Forests and Waters.

#### SETS MARK FOR SCHOOL MILE

PITTSBURGH (AP)—Joe Thomas, a Uniontown High School senior, ran more than four seconds off his state high school record in the mile and came within 3.9 seconds of the national mark Friday.

Thomas ran the mile in 4:14.9 in the Mount Lebanon High School Invitational Relays. He set the state record with a 4:19 mile last month.

Thomas' time also cracked the record for high school milers in the East. Tom Laris of Washington, N.Y., ran the mile in 4:18.9 in 1958.

The national high school record, 4:11, was set by Dale Story of Orange, Calif., in 1959.

Thomas also broke a meet record for the half-mile, winning it in 1:57.6. The old record was 1:59.7. For his accomplishments, Thomas received the outstanding individual performer trophy.

Mount Lebanon won the meet with 53½ points followed by Clairton with 38½ and Uniontown with 28 1-3.

## Score Hurls 3-Hitter To Blank Senators 3-0

By ED WILKS

Associated Press Sports Writer  
They've been few and far between, but southpaw Herb Score has another step behind him on the long road back from the injury that almost ended one of major league baseball's most promising careers three years ago today.

Nagged by arm trouble and wildness since recovering from the line drive that endangered his sight May 7, 1957, Score recaptured some of his old success Friday night, pairing with reliever Gerry Staley for a three-hit shut-out as Chicago's White Sox beat Washington 3-0.

Score, one-time fast-balling strikeout ace, had lost seven straight since last July 3. In 51 1-3 innings since then he had given up 50 bases on balls. But Friday night he walked just two and fanned four before being lifted for a pinchhitter in a three-run seventh that kept the Sox in a virtual tie for the American League lead.

The Yankees won their third straight on Gil McDougald's eighth-inning single.

Baltimore cut loose for seven runs in the fourth inning against rookie Dick Stigman (1-1) and reliever Jim Perry. Skinny Brown (2-0) won his second complete game.

Boston capped its ninth-inning rally with two unearned runs after a two-out error by shortstop Chico Fernandez.

## 19 GOLFERS UNDER PAR IN TOURNAMENT

By BOB MYERS

Associated Press Sports Writer  
LAS VEGAS, Nev. (AP)—Nineteen of the field of 21 professional golfers were under par for 36 holes today as little Jerry Barber of Los Angeles led the way into the third round of the \$42,400 Tournament of Champions.

But things figured to be a little different—and more difficult—today, with the Desert Inn Country Club course tightened up and the cups made a bit more difficult to locate.

The course is some 7,000 yards and par is 36-36-72.

In the second round, 15 of the players broke par, including the 44-year-old Barber, the oldest and smallest pro in the lot. He had a 66 for a total score of 135.

**2 Are 1 Stroke Back**  
One stroke back were two formidable players, Ken Venturi and Jay Hebert, and just two shots off the pace were a menacing Arnold Palmer and veteran Julius Boros.

With the final round scheduled Sunday before a national television audience, (NBC, 5-6 p. m., EDT) today's round was a critical one for all concerned.

Palmer shot a par 72 in the first round but blazed around to tie the course competitive record with a 65 Friday, negotiating the route with nine hole scores of 34-31.

Tom Nieporte of Bronxville, N.Y., also shot a sensational 34-31—65 to land in the 138 bracket and a tie with Dow Finsterwald (68).

Also in close contention at 139 were Mike Souchak, the 1959 winner here, who had a 67; Art Wall Jr., a former winner, and Jack Fleck with 70's; and the two first round leaders, Dave Ragan and Don Whittin, 72's.

New Oxford's golfers upped their Central Penn League record to 7-5 by edging York 8-7 at Abbotstown Friday afternoon.

Phil Bankert of the Colonials took medalist honors with a 77.

**Summaries:**  
Phil Bankert, NO, defeated Harold Rudisell, 6 and 5 (3-0).

Ron Rowland, NO, defeated William Schmidt, 3 and 1 (3-0).

Dick Diehl, NO, defeated Terry Wueschinski, 3 and 1 (2-1).

Steve March, Y, defeated Mike Smith, 4 and 3 (3-0).

Fred Ettline, Y, defeated Ted Rowland, 2 and 1 (3-0).

## Marraccini Leads Mount To Victory

Mt. St. Mary's strong track team capped its fourth straight dual victory by outclassing Catholic University 84-33 in a meet at Washington, D. C., Friday.

Dean Marraccini was the big star for the Mountaineers, winning the high hurdles, pole vault and high jump.

The Mount will meet Western Maryland in a dual meet at Emmitsburg Monday.

## 3 Willies Belt Homers As Giants Beat Pirates

By ED WILKS

Sad Sam Jones is back in stride, the Willies are at it again and the San Francisco Giants are within one game of the National League lead.

It was as simple as that for the Giants Friday night, whipping Pittsburgh's first-place Pirates 5-1 in the opener of a three-game series at Candlestick Park. They scored all their runs on homers by Willie McCovey, Willie Kirkland and Willie Mays while Jones spun a three-hitter.

Jones, a 21-game winner in the Giants' near-miss of last season, now has a pair of three-hitters and a one-hitter for a 3-2 record after taking a couple of beatings by St. Louis and Los Angeles. This one handed the Pirates' Vern Law his first defeat in five decisions.

Third-place Milwaukee, 2½ games behind, was rained out at Chicago, but the Cincinnati Reds won their fifth straight, beating fourth-place St. Louis 1-0 on a

four-hitter by Jim O'Toole, who also drove in the run. That gave the Reds a fifth-place tie with Los Angeles, beaten 6-1 in 10 innings by Philadelphia.

**Phils Beat Dodgers**  
The Giants went right to work on the Pirates, scoring two in the first inning on McCovey's eighth home run, tops in the majors, after a single by Jimmy Davenport. Kirkland's No. 4 home run came in the fourth with Orlando Cepeda on base. Mays, hitless in only one of the Giants' 19 games, then his second home run by way of marking his 29th birthday.

The Phillies, with Don Cardwell and winning reliever Dick Farrell (2-0) holding the Dodgers to two hits, won their first at Los Angeles in 13 tries since 1958. Bobby Gene Smith's double broke a 1-1 tie in the five-run 10th and Al Dark added a two-run homer against loser (Sandy Koufax 0-2), who struck

Associated Press Sports Writer  
LOUISVILLE, Ky. (AP)—Twelve 3-year-old horses, tuned as fine as humanly possible at a cost of more than \$200,000, waited for the signal today sending them after gold and glory in the 86th Kentucky Derby.

Post time for the start of this tradition-steeped 1¼-mile run around ancient, flower-bordered Churchill Downs is 4:30 p.m. EST. It will be televised and broadcast nationally (CBS) with TV set for 4:15-4:45 p.m. and radio for 4:30-4:45.

In a little more than two minutes (the record is 2:01 2-5 by Whirlaway in 1941) it all will be over except for the crowning of the winner with a blanket of red roses, the awarding of the huge gold trophy to the owner and the shouts and shrieks of the winning bettors in the crowd of some 100,000.

**Two Are Favored**  
If the winner should be other than C. V. Whitney's Tompion or Leonard Fruchtmann's Bally Ache, the shouts will be drowned by moans. For these two horses stand out like the Downs' twin stepples.

Tompion, a Kentucky-bred son of Tom Fool who made his reputation in California, is likely to go postward the 7-5 choice.

Bally Ache, winner of Florida's two \$100,000-plus stakes for 3-year-olds out of the money only once in 23 starts, is the firm second choice at 2-1.

Fourteen were named for the race.

But two were expected to be scratched. One is Henry Elmore's Henrijan, who has been slow recovering from a slight fever.

**\$116,000 To Winner**  
The other is Hillsborough, Calumet Farm's candidate for its eighth derby success. Trainer Jimmy Jones said he doesn't consider the son of Ponder good enough to match strides with Tompion and Bally Ache.

Based on 14 starters the race has a gross value of \$160,000 with net of \$116,100 to the winner. For each scratch subtract the \$1,250 starting fee.

Only four of the jockeys ever have been up on a derby winner. Willie Shoemaker, who'll ride Tompion, won last year with Tommy Lee and in 1954 with Debutante. Bill Hartack will seek his second aboard Isaac Blumberg's Venetian Way. Hartack won in 1957 with Iron Liege.

Ismael Valenzuela scored with Tim Tam two years ago. He'll handle the reins of Llanofan Farm's Divine Comedy. Steve Brooks goes after No. 2 on either Hillsborough or T. A. Grissom's Lullabell. His winner was Ponder in 1949.

For Bob Ussery, his ride aboard Bally Ache will be his first in a derby.

## HOUSE GROUP DEPLORES U. S. FARM PLIGHT

By WILLIAM F. ARBOGAST

WASHINGTON (AP)—The House Appropriations Committee decried the plight of the farmer and rapped administration farm policies Friday as it approved a \$3,964,781,500 money bill for the Agriculture Department.

This is \$170,481,690 less than President Eisenhower had requested for the fiscal year starting July 1 for the department's regular and special activities.

Asserting that "the most serious problem" facing agriculture today is continued overproduction of crops already in surplus supply, the committee called for a new approach to production control.

**Surpluses To Farmers**  
It noted that the government, through the Commodity Credit Corp., already owns nine billion dollars worth of surplus commodities. These surplus stocks, it said, should be offered to farmers in consideration for cutting back production.

The results of such a program, the committee said, would be a saving in storage costs, a reduction in price support payments in line with production eliminated, and a saving to farmers through reduction in costs of production for which there is no market.

An alternative approach suggested would be to continue price supports on total production limited to domestic and foreign market needs.

**Spending Up, Income Down**  
The committee recommended that the department be given authority to encourage growers of wheat, corn and feed grains to cut production up to 25 per cent in any one year in exchange for an equal quantity of surpluses held by the government.

## Leukemia Victim Is Made 'Fireman'

NANTY GLO, Pa. (AP)—Joseph Dino Jr., a 7-year-old leukemia victim given less than a year to live by doctors, wanted to be a volunteer fireman just like his dad. His wish was fulfilled Thursday night.

Elmer Little, the fire company president, presented little Joey with a card that made him the one and only member of the Junior Fire Company in this Cambria County community.

In ceremonies at the fire hall, Joey also was given a fireman's raincoat, a t-shirt and a badge. To cap the evening, he was taken for a ride in a fire truck.

ALBANY, N.Y. (AP)—A sports car driver was injured by a hit-and-run deer Thursday.

Robin Knox, 19, was driving through Thacher State Park when a deer leaped over the car. A hoof struck Knox on the head. Knox was hospitalized.

has been accomplished, the committee said, a commission should be appointed to prepare for submission to Congress a farm plan on protecting farm income and keeping production in line with market needs.

Despite the heaviest federal spending in history on agricultural programs, the committee said, farm income in 1959 was at the lowest level since before World War II. If the present farm policies are continued, it said, the situation will worsen.

**DO YOU HAVE ARTHRITIS?**  
Here is a message you will want to read.

Your doctor can tell you there is absolutely NO KNOWN CURE for arthritis. Medical research specialists are now engaged in several projects which, it is felt, will ultimately help in finding a cure, but as yet none has been found. Naturally, we all live in hope they will be successful, but until that time we must be content to get the best relief possible. Right now there is a fast, safe and effective relieving agent available called Pruvo. Pruvo's ingredients have been used in hospitals and clinics, prescribed by doctors, and have helped scores of men and women to lead happy and full lives. You can be sure nothing is faster, safer or has been proven more effective than Pruvo for a temporary easing of a minor arthritis condition or its related diseases... rheumatism, neuritis, sciatica, lumbago and bursitis. And it's wonderful for backache and every-day muscular aches and pains, too. Try Pruvo today. Ask your druggist for a generous 75-tablet TRIAL-SIZE BOTTLE. You must be satisfied with the results or your purchase price will be refunded by the maker. There are larger, economy sizes also, for continued use.

## DISPUTE ABOUT AIDE'S MONEY

HARRISBURG (AP)—The Commonwealth's claim to some of the money in the accounts of a Montgomery prothonotary's aide is being disputed by county commissioners.

They filed a petition Thursday asking Dauphin County Court to dismiss the state's claim and to rule that the Dauphin County Court has no jurisdiction in the case.

Roger B. Reynolds, Montgomery County solicitor, argued that some of the money in the accounts of Abram D. Hallman is payable to the county in costs for divorce cases and that the remainder is for refunds of overpayments of the costs and fees.

A suit filed in Dauphin County Court last month claimed the state should get the money under estate laws because the original owners were unknown for more than seven years.

The court took the petition under advisement.
